WHAT TO DO AND HOW TO PREVENT IT

Faculty of Medicine
and Dentistry

Read the important **information** and **steps** on how **to respond** to and prevent various security incidents. **Important contacts** are listed below..

BE AWARE OF YOUR SURROUNDINGS!

If something seems suspicious or unsafe, do not hesitate to contact any University employee (lecturer, doorman, event organizer, etc.).

This may include:

- a **suspicious person** (acting strangely, looking strange, being in an area where it is neither usual nor customary or outright forbidden, aggressive, nervous, etc.)
- a **suspicious object** (possibly explosive device, suspicious luggage, weapon, chemicals in an unusual place, etc.)
- any other **unusual or strange event** (open door or window that should be closed, smoke, smell, etc.)

In the event of an **obvious serious incident** (violence, fire, seriously injured person, explosive device, etc.), **call the Emergency service directly** (158, 155, 150, 112).

- In the case of an **aggressor**, be careful not to enrage them even more by, e.g. visibly calling the police. Get to safety first.
- Do not touch a possibly **explosive device**, go to a distance (e.g. around a corner) and call 158 immediately. Alert other passers-by from a safe distance to the object, shouting for them to leave the area as well!

DO NOT RELY ON SOMEONE ELSE TO REPORT THE MATTER!

THREE SIMPLE RULES when there is a significant physical threat (including the gunman):

1. If you can, **RUN!**
2. If you can't run, **HIDE!**
3. If you can't hide, **FIGHT!**
(with whatever you have on hand)

YOUR LIFE COMES FIRST!

In a dangerous situation, the most important thing to do is to keep your cool and **get yourself or others out of harm's way**, but only when the situation allows.

Protect **people's lives first** and foremost. **All other valuables** (documents, personal property, university or third-party property) **stand aside** at this time!
